- Polish: native
- German: basic

Education:

**Warsaw University of
Technology**

2017 - 2021

Bachelor of Mechanical
Engineering

Projects

Job Finder [LIVE GITHUB](#)

The website features a job finding platform that allows users to easily search and apply for job offers, create and manage their CV, browse companies, and read and write reviews. Users can create accounts and log in to access additional features, such as the ability to add new job offers and view received applications for companies.

- Fullstack with React, Express and MongoDB
- Fully responsive design
- RESTful API
- JWT authorization
- Build in CV creator

Logic Gates Simulator [LIVE GITHUB](#)

The platform serves as a simulation tool for the design and experimentation with digital logic circuits.

- Frontend app written in React
- Logic gates simulation
- Draggable elements
- Creating reusable blocks from logic gates
- Saving in local storage

Kanban Board [LIVE GITHUB](#)

The website allows users to create projects and manage tasks through lists, such as "to do," "in progress," and "done." Tasks can be moved between lists by drag and drop functionality. It also features a switch between Kanban board view and list view with filters for easy organization.

- Frontend app written in React
- Draggable elements
- Sorting and filtering

Fire Extinguisher Management System [LIVE GITHUB](#)

The fire extinguisher management system website aims to facilitate the management of a large number of extinguishers. It features an interactive map of a building displaying the locations of all extinguisher points, with the ability to view data such as inspection status and assigned extinguisher type.

- Frontend app written in React
- Interactive layout of a building
- Adding new points and extinguishers

Experience

Maintenance Engineer

Jan 2021 - now

Ferrero Polska Sp. z o.o.

- Introducing a mobile application for Computerised Maintenance Management System in the factory
- Data analysis and creating reports and statistics
- Supervision of the fire protection system
- Conducting meetings and trainings
